

Statement of Support for 2017 European Week of Sport

We acknowledge the important role that the European Commission plays in sport and actively support the 2017 European Week of Sport.

We share the values of the #BEACTIVE campaign and are committed to promoting the importance of physical activity and healthy lifestyles for all, particularly for younger generations. We have no doubt that the activities will help raise awareness about the issues at hand and help foster the much-needed cultural change, from grassroots up.

We share the objectives that underpin this inspiring initiative and render our support to the European Commission. As a result, we have teamed up with the Sport Integrity Global Alliance (SIGA) their members and supporters, as well as our member National Federations in Europe and intend to use the power of social media to engage people and promote, with a series of initiatives, the positive role of sport including Parkour for the benefit of all European citizens.

We believe it is time to usher sport into a new era where good governance and integrity are the number one priorities. The 2017 European Week of Sport is a great opportunity to work towards achieving this.
